

# Certified for Microsoft Dynamics® Solutions

Proven. Tested. Recommended.

## Need proof before you buy a new solution?

Your company is uniquely designed to fill a specific need in the market—that's what makes you successful. That's also why you need a business solution that is proven to meet your unique needs. You want assurance that the solution you invest in meets the highest quality standards, is backed by a reputable company who is as committed to your success as you are, and—most importantly—is recommended by other companies like yours.

Microsoft set the bar high by developing the Certified for Microsoft Dynamics accreditation. It sets a small group of proven, tested, and recommended business solutions apart from thousands of other solutions that have not met the rigorous requirements.

### **RF-SMART® has earned the Certified for Microsoft Dynamics accreditation.**

Solutions that are Certified for Microsoft Dynamics have met Microsoft's highest standard for partner-developed solutions. They are:

- Designed to help meet your unique business and industry needs
- Tested and seamlessly integrated with Microsoft Dynamics products
- Used and recommended by other companies like yours

*As a CfMD solution, RF-SMART has achieved Microsoft's highest quality standard for ISV solutions and is a CfMD solution fully dedicated to RF/Mobile data collection for Dynamics AX.*

#### **Thorlabs**

"We found RF-SMART to fill our needs on three points. One, RF-SMART has a small, un-intrusive footprint into Microsoft Dynamics AX. Two, it is a product fully maintained by RF-SMART development and support. And, three RF-SMART allows maximum use of the built-in Microsoft Dynamics AX warehouse features we already owned."  
*Sam Rubin, Senior Operations Manager*

#### **Britax Australia**

"To ensure a low total cost of ownership, it was vital that the integration between RF-SMART and our ERP was fully certified by Microsoft as a robust solution."  
*Ben Hancock, IT Director*
